SHORTS SOUEEZED IN COLUMBUS CON

Frantic Endeavors to Fill Sent the Stock to \$1.70 on the Exchange This Morning.

A dejected lot of "shorts" gathered around the rail this morning on the mining exchange when Columbus Con. was called. All of them had dismal forebodings that the stock would continue its upward course, which was started yesterday morning when the stock started out at 77 and gently moved up to 93. This action yesterday morning made some of the "shorts" sit up, and the movement to fill in the

afternoon started the stock kiting again, when it went to over the dollar mark. The excitement and interest grew with each sale, and as the stock is closely held, the upward movement was This morning it opened at 1:40

rapia. This morning it opened at 1:40 and went up to 1.70 on the board. Sales were made at 1.63½ at the close, and on the open board after the regular call the stock was traded in down to 1.50. When the gong was sounded by Caller Wasson at the close of husiness for the, day, a number of brokers left the pit feeling they would give a good deal to know what the stock will do on Monday morning. Asked concerning the matter Manager Tony Jacobsen of of Columbus said he looked for sales to be made at much higher prices than the recorded today. He thinks the lesson will be salutary to several brokers who are knocking by selling shorts. lesson will be salutary to several brokers who are knocking by selling shorts. He does not favor shorting anyway, as it often works an injury to those who have meritorious propositions which are being developed legitimately.

It is believed that the present experience in Columbus will make "sellers 30" and "sellers 60" scarcer on the board for a few days. One leading broker said this morning, "It will make us careful, as what has happened in the case of Columbus can happen in other

It will also have a tendency to make

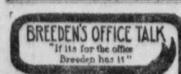

some of the brokers inquire into the conditions before they go headlong into shorting in the future. They will find out what the capitalization is and how the stock is held. Outside of Columbus Consolidated the

outside of Columbus Consolidated the market was practically featureless, excepting possibly Iron Blossom, which went down to 58 ex-dividend. Sloux stood at 44 and Uncle Sam hung around the same figure. Colorado was active at 76 and 77. Red Warrior was strong at 3.6235, and Lower Mammoth was figure. This morning at 4014.

FROM WEST TINTIC.

Small Body of Shipping Ore Found in O. K. Silver Mining Co.'s Property,

The West Tintle mining district is again coming before the public and from present indications there will be some excellent reports from that section within a very short time.

At the O. K. Silver Mining & Milling company's property, which is located

company's property, which is located about 15 miles northwest of Tintic Junc-tion, about \$10,000 worth of development tion, about \$10,000 worth of development work has been done, and some high grade ore has been discovered. Several large caves have been encountered during the progress of the development work, and each cave has been heavily mineralized, while other indications go to show that the ore has been leached out and has gone down. The size of these caves indicates that there may be bodies of ore at greater deaths.

bodies of ore at greater depths.

A small body of ore has been found in the lime at water level that gives values of better than \$40 per ton. The contact in the quartzite is upwards of 80 feet wide and it is heavily mineralized and is dipping toward the caves. The property consists of a group of six claims.

DALY JUDGE IMPROVEMENTS.

Large New Compressor Will be Installed-Operated by Electricity.

With the installation of a new large air compressor at the Daly Judge, preparations will be perfected for a more active campaign of development of that promising property during the ensuing year. The compressor, which has a capacity of 2,100 feet of air per minute, will enable the company to work double the number of machine drills in use at present. The foundation for the large compressor is ready and the machine is expected to reach the mine chine is expected to reach the mine in a week or two. It will be operated by electricity, the power being furnished by the Snake River Power company, in which Jesse Knight is the pany, in which Jesse Knight is the principal figure. The transmission line from the power plant to the mine is nearly finished, and the plant itself is expected to be in operation within 30

The Daly Judge is obtaining good results from the mill just now, and the zinc tallings going to the zinc plant have been increased to 70 tons a day, part of it being derived from the old dumps near the mill. The company's dumps near the mill. The company's cash reserve is well on the other side of the \$200,000 mark, and the new devel-

opments in the mine are said to be proving up most encouragingly Manager Lambourne expects to have arrangements completed to start work on the three-mile drain tunnel, which is to cut the rich inineral zone at depth, within the next week or two. The tunwithin the next week or two. The tun-nel will be double-tracked the entire distance so as to afford the best trans-portation facilities. In all other re-spects the tunnel will be thoroughly up-to-date.

SUES SILVER KING.

Uintah Treasure Hill Alleges Trespassing and Extraction of Ore.

The Untah Treasure Hill Mining company has filed suit in the United States court against the Silver King Coalition Mines company alleging that the defendant company has been trespassing and extracting ore from the property of the complainant. An ac-counting is asked for.

counting is asked for.

The two companies own jointly adjoining properties in the Park City district. The papers allege that the Silver King people have worked under the property of the Uintah company and that the ores have been extracted. A partition of the property occupied jointly is also asked for.

DISTRIBUTION OF VELVET.

Colorado Has Today Practically Reached \$2,000,000 Mark.

Reached \$2,000,000 Mark.

This was distribution day for two Utali mines, the Colorado and Uncle Sam. The former sent out checks aggregating \$50,000, being 8 cents a share on 1,000,000 shares, and the latter paid out \$10,000, being 2 cents a share on 500,000 shares. With the payment of this dividend the Colorado has paid to its stockholders the sum of \$1,850,000 and the Uncle Sam has distributed \$315,000 in addition to the sum of over \$1,000,000 said to have been taken out by "Uncle" Jesse Kuight before he parted with the property.

The Iron Blossom distribution of \$80,000 will take place on the 25th inst., which will raise the total paid by that company to \$331,200,

PYRITES COMING IN STRONG.

Conditions Improving in Tintic Standard Shaft, Now Down 694 Feet.

ard Shaft. Now Down 694 Feet.
Rumors from Tintic this morning that the Tintic Standard has struck ore proved to be unfounded when Manager Raddatz talked with the mine over the phone shortly after noon today. Conditions however, are said to be very encouraging, iron pyrites are satering the shaft stronger with every foot of depth, and this is taken to indicate the close proximity of a body of ore, but the ore has not been tapped. This was hardly expected. It is possible that a great deal of exploratory work may have to be done on the 700 fevel, which will be reached by the shaft on Tuesday next. The depth today was reforted to be 834 feet.

LASTING RICHES OF EUREKA ORE BODIES

Gemini Ore Deposits on 1900 Level Indicative of Good Profits at Greater Depths.

The wonderful richness of the ore deposits under Eureka and vicinity is still being exemplified after many years of extraction, during which time millions of dollars worth of ore has been marketed. The Gemini is still giving a good account of itself, and a new producer has entered the ranks in the same locality in the Chief Con.

Manager Jackson C. McChrystal of Manager Jackson C. McChrystal of the Gemini and the Ridge and Valley says the 1,800 level of the Gemini is producing some very fine ore, similar to that of the rich chute found years ago on the 1,600 level. The ore runs well in silver and affords a handsome margin. There is a fair flow of water on this level, but thus far the management has found no difficulty in handling it. The Gemini is a close corporation and very little is said about its earnings, but the old bonanza is said to be giving a good account of itself. to be giving a good account of itself, and the sinking of the shaft to the 2,000 level is one of the probabilities of the

near ruture.

Of the Ridge and Valley Mr. Mc-Chrystal says it has been demonstrated that one of the Gemini's ore channels enters that property, and some ore is now being shipped through the Gemini

TONNAGE IS HEAVY.

Nevada Northern Hauls 10,000 Tons Daily From Nevada Con. to McGill,

The McGill concentrator is kept busy these days according to the statement of L. G. Cannon, president and general manager of the Nevada Northern railroad, who is in the city. The daily haul over his road from the Shovel mine of the Nevada Consolidated is said to be about 10 000 tons. Thurselent mine of the Nevada Consolidated is said to be about 10,000 tons. Thirty-eight trains are being run daily and it has been found necessary to install the block system. Mr. Cannon says the Steptoe Smelter company has expended large sums in the improvement of the smelter, concentrator and equipment generally, thereby greatly increasing the efficiency of the plant.

COPPER GOING TO EUROPE.

Exports of the Past Week Nearly Double Those of Previous Week.

(Special to The News.) New York, Nov. 20 .- An enormous in-New York, Nov. 20.—An enormous increase in copper exports has taken place this week, amounting to nearly 100 per cent. The figures are 12,343,615 pounds as compared with 6,230,613 pounds the previous week. The most important shipments are as follows:

DISSOLUTION OF HERO-NEVADA.

The Hero-Nevada, Mines company has filed a voluntary petition for dissolution in the Third district court. The concern has a capital stock of 1,000,000 shares, 899,842 of which have been issued. The stock-holders held a meeting recently at which 625,000 shares were represented, and it was decided to dissolve the company. Among the officers are Van D. Spalding and W. D. Livingston.

FIRST GRAPHITE SHIPMENT.

The first car of graphite ore from the vicinity of Perry, Boxeider county is now at the mill of the Utah Fire-clay Products company in this city, awaiting the completion of grangements for crushing the same. The slupment has been made by the Homber Mining company which owns a group of claims on which a large vein of graphite has been found which runs from 90 to 98 per cent pure graphite.

CONCENTRATES.

The Nevada Hills Mining company has moved its office from the Dooly block to room 204 of the Newhouse

Manager George H. Dern of the Con. Mercur, who came in from camp today, reports everything running about as usual at the mill and mine.

Bullion returns of the Round Mountain Mining company (Nevada) for the month of October are said to have been over \$41,000, which is high water mark. Work will shortly be resumed on the property of the Virginia Gold Mines company, near Osceola, Nev., under the direction of Dr. H. A. Whitney of this city.

With the instalment of the new cage In the Silver King Con. at Park City, the ore taken out in development, which was stored in the drifts in the mine, is now being taken out and conveyed by teams to the sampler.

Four and one-half feet of sulphide ore is reported in the face of the drift in the Bullock mine. The trial shipment is said to have been satisfactory and other lots will go forward to the smelter beginning next week.

A well earned promotion carrying with it a substantial increase in salary has come to Imer Pett, formerly business manager of the Bingham Mines company, who was teday notified of his appointment to the position of general manager of the company. At the quarterly meeting of the directors of the Goldfield Con. Mines company held yesterday at Goldfield, the regular dividend of 30 cents a share, payable Jan. 1, 1916, and an extra dividend of 30 cents a share payable. In 1

d of 20 cents a share payable Jan. 31, 1910, were declared. Freudenthal, operating in

E. F. Freudenthal, operating in Pioche, who has just returned from the east, speaks hopefully of the future of the metal market, and especially of the camp of Pioche, which, he says, will sooner or later experience something of the boom that has come to Ely.

thing of the boom that has come to Ely.

Parties who have returned from the new gold strike at the headwaters of Bruneau creek, northern Nevada, report the discovery of a big ledge about 60 feet wide which carries good values, grab samples assaying \$150 per ton. Sixty or 70 men are said to be on the ground, and the prediction is made that the camp will be an important one.

EASING MONEY HELPED MARKET

Speculative Revival of the Week And eDals and Rumors of Deals Exciting Influences.

TRADE ADVICES FAVORABLE.

Opening Dealings Active-Decision in Standard Oil Case Caused Outbreak of Liquidating.

New York, Nov. 20 .- Easing money mar kets have facilitated speculative revival this week and deals and rumors of deals have been inciting influences. Last weeks' addition to New York's surplus bank reserves and the striking recuperation of foreign banks have tranquilized sentiment on the money outlook. rumored copper consolidation, the abcorption of the Western Union by the American Telephone & Telegraph company, and the distribution of the Wells Fargo surplus have stimulated speculative imagination. Announcement of sev eral new bond issues mark the progress

tive imagination. Announcement of several new bond issues mark the progress of financial plans. Trade and industrial advices continued favorable.

Opening dealings in stocks today were active but only small price changes were effected. Gains and losses were evenly divided. giving the market a very irregular appearance. Reading opened down a point but recovered quickly. The first hour's activity centered in the industrials with certain of the copper stocks the chief features. There were advances of 6 points in American Express and 9½ in United States Express. Rock Island was a weak point.

The decision of the United States circuit court against the Standard Oil company caused brisk liquidation. Reading sold over 4 points below yesterday's closing and the remainder of the list anywhere from 1 to 3 points.

News of the order dissolving the Standard Oil company caused an outbreak of liquidation on the stock exchange and there were general declines of from 1 to 4 points in the general list. Reading was the weakest, selling at a decline of 4 points from yesterday's close. At the close the price of Standard Oil stock had declined to 690, a decline of 12½ points from the close of last night. The stock closed at 690 bid and \$790 asked. The close was weak.

WOOL.

ST. LOUIS

St. Louis, Nov. 20.—Wool, unchanged. Territory and western mediums, 24@29; fine mediums, 21@26; fine, 14@20. BOSTON.

Boston, Nov. 13.—The Commercial Bulletin of Boston will say of the wool market Saturday:
The mills are buying moderate quenti-

ties of all kinds of territory wool, as well as clothing short wools and some foreign crossbreds. The total business, however, is only moderate, and no material increase in trading is looked for until heavyweight goods are opened. The market is strong in sympathy with foreign conditions.

The shipments of wool from Boston to Nov. 18, inclusive, were 235,569,592 pounds, against 166,899,602 pounds for the same time last year. The receipts to Nov. 18, inclusive, were \$1,136,50 pounds, against 240,329,507 pounds in the same period last year.

PRODUCE. CHICAGO.

Chicago, Nov. 20.—Steadiness marked early trading in the wheat market today, following intilal declines ranging up to 46. Commission houses in general were sellers of the December delivery. The declines at the start were due to a break of 46 to 5d. at Liverpool. The December option opened at 1.08 to 1.08% and remained within those limits early in the day. Clear weather in the corn belt caused moderate weakness in the corn market.

December delivery opened 1484 at 59% and sold at 59% 6% were easy. December opened a lower at 39 and later touched

shade lower at 39 and later touched 392 18.

Provisions were active and firm. Buying of lard by several leading houses was a feature of trading. Prices at the opening were 2½ lower to 10 higher. Wheat—The market became slightly easier during the last half of tife day owing to weakness of the December delivery at the northwestern grain centers. The low point here for December was 1.07%.

May sold off to 1.05; the close was easy, with December a shade lower at 1.08% 20% and May 1.08 lower at 1.06%. Corn—A heavy tone prevailed all day and at the close December was ½ lower at 50% 20%.

Close—Wheat—Dec. 1.08% 20%; May. 1.05%; July. 96%.
